For Telephone Customers In 2007, the Federal Communications Commission (FCC) adopted new rules for telephone companies to protect your customer information. Customer Proprietary Network Information (CPNI) includes the call detail information such as called number, time of call, length of call etc. as well as the types of service offerings to which you subscribe and the extent to which the services are used.

As you may be aware, we will only be able to discuss account information with the person(s) listed on the account or legal power of attorney. If call detail or password information is required over the phone, you will need to provide a previously set password in order for our customer service representative (CSR) to supply the requested information over the phone.

In an effort to serve you better, we are asking you to answer two or more of the following questions. In the event that you call our office requesting information about your account, and do not remember your password, we will ask you one of these questions before giving any information about your account.

PLEASE ANSWER TWO QUESTIONS

Please answer at least two questions, OR give us a password or PIN # so we can validate you if you call in regarding your password or account information.
