

Welcome to Sytek!

A service provided by Upsala Cooperative Telephone Association

Please fill out the attached application for telephone and/or internet service.

There is a required deposit of \$100 due when the application is returned to our office. It will be credited back to your account after 12 months of timely payments. Sytek has an installation fee which will be determined depending on the existing equipment at your home. This can be paid up front or with your first billing statement. **This is a separate and additional charge from the deposit.**

If you are requesting service for a newly constructed house, please allow 4 weeks for the installation, provided the ground allows for plowing of the Fiber To The Home (FTTH). If the ground is frozen, plowing will be based on environment. If fiber needs to be plowed, the installation fee is \$200 **plus** the plowing fee. The \$200 installation fee may be waived with a 24 month contract.

If you are requesting service for an existing home, please allow two weeks for installation provided that FTTH was plowed at an earlier date. If fiber has already been plowed to the home, the installation fee is \$100. The \$100 installation fee may be waived with a 12 month contract.

If the application requires plowing of the Fiber-To-The-Home, our technicians will need to go to the site and measure. The first 250' on private right away (driveway to home) is free. The first 750' on public right of way (coming from our nearest ped to your driveway) is free. It is \$1.90 per foot after the 250' on private and \$1.90 per foot after the 750' on public. When our office has finished measuring, you will receive an estimate by mail with the deposit amount required to start the installation of service.
